

Claim 39: The printing and curing station of claim 35 wherein said second moving mechanism is constructed and arranged to reciprocate said UV-LED assembly over products on said support which is stationary.

Remarks

Reconsideration of the subject U.S. patent application in light of the present Amendment and Remarks is respectfully requested.

Authorization is hereby given to charge any deficiency in fees or any other fees in connection with the subject patent application to our Deposit Account No. 23-0920.

The specification has been amended to correct typographical errors in the priority application in the Cross-References to Related Applications as well as in the Figure number at page 15 of the specification. These typographical errors were made through inadvertence and mistake without intent to deceive. Furthermore, the headings of the specification and identification of the claims have been amended to comply with the U.S. Patent Office Rules. The amended specification contains no new matter.

An Updated Application Data Sheet is also enclosed in compliance with the U.S. Patent and Trademark Office Rules to correct the priority patent application number as well as to include the Assignment information.

Examination and allowance of the U.S. patent application with the pending claims as amended is respectfully requested.

Respectfully submitted,
